**To Whom It May Concern**

Messers ID Project- Lebanon has successfully completed the wood fabrication and installation for the renovation project at the Crowne Plaza Hotel Amman, Jordan. The Ground Floor and Meeting rooms were renovated between the period from October 2007 until the defect liability period was completed on Dec 2009.

ID Project Lebanon successful completed the shop drawings in a timely manner, fabricated and painted the wood in Lebanon, packed and shipped the material, and installed the wood with all accessories in Amman in a very organized and well managed operation to the satisfaction of all parties.

During the duration of the project, ID Project experience with prior similar projects was essential in solving installation difficulties and proposing creative solutions at every step. Positive responses and high moral were exercised by every team member and was one of the key success factors on the project.

We wish ID Project Lebanon team a successful future in their endeavors.

Best Regards,

Safwan AlNasser

General Manager
